MATERIALS :

Methacrylate, painted metal

DESCRIPTION :

"The Cosmic Landscape appears to have emerged from a digital lava flow of light...out of a ceiling , out of a wall , out of a floor ...releasing its complex shape as algorithmic air.... Liberated into free space it seems to cool into a complex three dimensional sponge of light... appearing dematerialized so its edges blurr becoming dimmed and soft on the eyes, changing its colour, enjoying its nebula nature." Materials: painted metal structure. Injection-moulded opal methacrylate diffuser.

Available in two versions with different shapes: one more sinuous (Cosmic landscape wall/ceiling 30) and one flatter (Cosmic landscape wall/ceiling 15).
