

**Algoritmo System - Diffused Emission - Wired gear plates white LED Direct emission - 62W 2368mm 4000K Non dimmable + Diffused Emission Optic**

**DESIGN BY**

Carlotta de Bevilacqua, Paola di Arianello

**DESCRIPTION**

A modular system for ceiling or wall-recessed installation, to be installed as a continuous line or with angles, composed of structural modules in extruded aluminium, of pre-wired gear plates with through-wiring and quick-connection system of optics systems and components for connecting, fixing, joining or finishing the system. The prewired LED plates were designed for diffused emission, wall washer light, prismoptic or controlled emission, for projectors integration (PAD or Cube 37), for 3 phase track alimantation. Complies with standard EN60598-1 and any other specific standard.
