### **TECHNICAL DRAWINGS**

#### **DESIGN BY**

Carlotta de Bevilacqua

## DESCRIPTION

**FEATURES** 

An innovative moulded clear polycarbonate optical unit allows to drive the flow emitted by the LED source towards the output section, thus generating broad luminous beams (2x35°) with very high yields (approximately 80%) and a mild light scattering effect. The special geometry of the reflector is made up of an external layer of 90° prisms reflecting light rays, while the micro-lenses on the inner surface provide for even distribution of light within the desired angles.

Article Code:		Material:	Methacrylate,
Colour:	Transparent/White		polycarbonate
Installation:	Suspension	Series:	Scenarios
DIMENSIONS			
Height:	cm 16.3		
Base Diameter:	cm 12.5		
Max Height from ceiling:	cm 150		
SOURCES NOT INCLUDED			
Category:	LED	Color temperature (K):	3000K
Number:	1	•	
Watt:	6,8W		
Type:	2		
	_		

## **LUMINAIRE**

Watt:

Socket: Class:

6,8 W

GU10
