DESCRIPTION

Series of ceiling mounted luminaires available in 4 diameters (80 mm, 270 mm, 570 mm, 970 mm), using high-output LEDs, Retrofit LEDs. Consists of a trimless recessed frame fitted into the ceiling and an optical unit with an aluminium body painted in a range of colours: beige/white, grey/white, black/orange, black/vert and black/blue. Tagora 80 and 270 offer a high-output spot light with aluminium optics. Tagora 270 uses a proprietary system based on a hybrid combined lens and reflector optic. This system helps to create defined narrow beams using high-powered LED modules of large dimensions. Tagora 570 and 970 come with a PMMA diffuser, offering a comfortable diffused light. LED versions use high-output sources. Integrated electronic power supply, dimmable or non-dimmable options, depending on the version. Only ceiling recessed installation allowed. Compliant with standard EN60598-1 and other specific standards.
