

TECHNICAL DATA SHEET ART. S.3155N - TRIM SQUARE 240 APPLIQUE

Version is available on request

1 MODULES LED 4000K 230V 1944lm CRI 90 MacAdam step 3
 Rated luminaire luminous flux: 1360lm
 Rated input power: 18W
 Luminaire efficacy: 76lm/W
 Electronic ballast 220÷230V 50/60Hz

* Photometric measured using WHITE LED 3000K

PRODUCT TYPE

Wall mounted luminaire. Bollard fitting (bollard version). IP rating IP 54

MATERIAL CHARACTERISTICS

Aluminium die cast housing in EN AB-47100 (low copper content) with high resistance against corrosion. Extruded EN AW-6060 aluminium structure (bollard version) with high corrosion resistance. Stone wash surface treatment prior to painting process. A4 grade Stainless Steel screws with 2,5-3% molybdenum content which increases the resistance against corrosion. Silicone gaskets. Painting Process : 3 Step Process

1) Surface treatment with BONDERITE. A heavy metal free chemical surface treatment containing ceramic nano particles giving a cohesive, inorganic and highly dense protective coating. 2) PRE POLYMERIZATION a process of introducing an epoxy primer with excellent characteristics to the paint which also offers very high resistance to oxidation due to its Zinc content. 3) POLYMERIZATION a process with the application of polyester powder with high resistance against UV rays and harsh weather conditions. Resistance test protection for Marine applications for 1200h. Mechanical resistance IK 09

LIGHTING PERFORMANCE

Toughened glass diffuser 4mm thick. LOR --. Trim double emission has been developed to ensure maximum visual comfort. The direct light of the front side is diffused by a special glass, to prevents glare and avoid the visibility of the LEDs. The indirect light is evenly distributed on the wall thanks to a second diffusing glass positioned on the rear side of the luminaire. Colour rendering index CRI 90, Colour stability step MacAdam step 3.

WIRING

Hard wired with H07RN-F cable 1,0m. Isolation: CLASS I . Available colours: White (cod.01), Aluminium grey (cod.14). Weight: 0.6 Kg Glow Wire test: --

Lamp included.

TRIM REGISTERED DESIGN

This luminaire contains built-in LED modules with energy class: A, A+, A++. In case of damage or malfunction please contact the manufacturer to receive additional instructions on how to replace and relative spare parts to order. The LED modules cannot be handled in the luminaire by the end user (Regulation UE 874/2012).

LED circuit boards are engineered accordingly to actual Lumen Maintenance regulation (LM80) and Technical Memorandum (TM21) where uniformity and quality of light is 50.000 hours referred to L70 B20 Ta 25°C.

Lifecycle refers to LED circuit boards only, all others components of the luminaire are excluded.
