The puristic ENOLA_C ceiling light consists of a cylindrical aluminium structure, which is equipped with a high-performance COB LED. Because of the built-in LED driver, the electrical connection of the luminaire is made directly to a 230V mains voltage supply. The light colour can be set to between 2000K and 3000K thanks to the built-in Dim to Warm technology. This luminaire contains built-in LED lamps. EEI: A - A++. The lamps in the luminaire cannot be replaced.
