The KARPO LED wall and ceiling light has its canopy and head connected by a hinge part which can swivel and tilt. Because of the high-power 7.5W LED fitted and the housing-mounted switch, the luminaire is suitable for many applications such as a reading light. The electrical connection of the luminaire, which is available in various light colours, is made directly to the 230V mains supply thanks to the built-in LED driver. This luminaire contains built-in LED lamps. EEL: A - A++. The lamps in the luminaire cannot be replaced.
