The square version of our popular XL NEW TRIA downlight color range is opaque white, black and alu brushed. The generously chosen rotating and pivoting area of the radiator mounting guarantees the individual beam orientation. Thanks to the built-in high-voltage GU10 version of the ceiling recessed ring is ready for direct connection to 230V mains voltage. According to Regulation 874/2012: This lamp is suitable for light sources of energy class E A ++.
