The high-voltage pendant luminaire ORION CONE impresses by the special appearance of its glass screen. While switching it on, the colour of the slightly translucent shade changes from brown/grey to a warm beige tone. By means of the incorporated E27 lampholder it is ready for direct connection to 230V mains using suitable light sources up to 40W. The included pendant suspension of 150 cm can be shortened easily. This luminaire is compatible with bulbs of the energy classes: E - A+
