Made from aluminum and glass, the wall and ceiling luminaire is equipped with a non-visible motion detector with microwave technology. The duration and intensity of the detection range is to be set by the user during installation. Furthermore, the fitting is equipped with a standard E27 high-voltage socket making it suitable for energy-saving lamps. Thus, the fitting is ready for direct connection to 230V mains supply. This luminaire is compatible with bulbs of the energy classes: A - A+
