Made from aluminum and glass, the wall and ceiling luminaire is equipped with a non-visible motion detector with microwave technology. The duration and intensity of the detection range is to be set by the user during installation. Furthermore, the fitting is equipped with several high-performance SMD LED to be connected to the incorporated driver. Thus, the fitting is ready for direct connection to 230V mains supply. This luminaire is compatible with bulbs of the energy classes: A - A++
