The LOUISSE 1 ceiling luminaire convinces by a combination of straight and circular forms with indirect lighting characteristics. The R7s lampholder for high-voltage halogen lamps of the same type provides the desired light intensity and is located within the smaller shell, which is adjustable by 90°. Due to the nature of the base plate, a perfect and glare-free reflection of the light beams is achieved. Louisse 1 ceiling is ready for direct connection to 230V mains supply. This luminaire is compatible with bulbs of the energy classes: D - A+
