The AIR INDI wall and ceiling lamp impresses with a combination of straight and round shapes with indirect lighting properties. The incorporated COB LED is located within the bracket providing the desired light intensity with either 9W or 18W. Due to the nature of the base plate surface, a perfect and glare-free reflection of light is achieved. Thanks to the incorporated LED driver, the AIR INDI wall and ceiling lamp is ready for direct connection to 230V mains supply. This luminaire contains built-in LED lamps. EEK: A - A++. The lamps cannot be changed in the luminaire.
