Adjustable high-voltage display luminaire LUNA where the mounting bracket and lamp head are connected via a straight rod. By means of the incorporated GU10 lamp holder, individually to be fitted with LED or halogen light sources, LUNA is suitable for many different applications. The electrical connection of the luminaire is made directly to 230V supply voltage via connection lead with fitted safety plug. Available in two different colour versions, the lamp head fits seamlessly into the LUNA product family and thereby facilitates the expansion of existing installations. This luminaire is compatible with bulbs of the energy classes: E - A++
