The double-headed wall and ceiling luminaire LEFA 2 is characterized by its two freely adjustable and warm white high-performance COB LED. Surrounded by a sophisticated design housing, the installed LEDs are powered by the incorporated constant current driver. Thus, the electrical connection can be made directly to 230V mains. To extend the series, we further offer a pendant and downlight version. This luminaire contains built-in LED lamps. EEK: A - A++. The lamps cannot be changed in the luminaire.
