The extravagant wall luminaire ICE is equipped with a white-transparent crystal ball hosting the warmwhite LED light source. The inner structure of that crystal ball creates a neat lighting effect and provides glare-free illumination. The ICE wall luminaire is completed by a rectangular, white base and mounting plate. Thanks to the already incorporated high-voltage LED, ICE is ready for direct connection to 230V mains supply. This luminaire contains built-in LED lamps. EEK: A - A++. The lamps cannot be changed in the luminaire.
