Suitable for lamps from EEC	A
Suitable for lamps up to EEC	A
Light distribution type 1	direct
Light distribution type 3	rotationally symmetric

The wall and ceiling luminaire NEODISC is made from aluminum and glass and designed to host an energy-saving T8 ring tube. A round, chrome-plated decorative cover is located in the center of the front pane, setting a strong contrast to the overall edgy design. Thanks to the already incorporated low-loss ballast, NEODISC is ready for direct connection to 230V mains supply. This luminaire is compatible with bulbs of the energy classes: A - A
