The puristic wall luminaire ENOLA B UP/DOWN consists of an aluminum/steel construction and is available in white or silvergrey colour version. Thanks to the position of the two incorporated lampholders, it produces two equal but oppositely arranged light beams (UP/DOWN) of the chosen high-voltage halogen lamps with GU10 socket. ENOLA B UP/DOWN is ready for direct connection to 230V mains supply. This luminaire is compatible with bulbs of the energy classes: E - A++
