Light distribution axisymmetric  
type 3

Aluminum wall luminaire of our DOWNUNDER LED series. The not visibly mounted LED source emits the light indirectly onto the surface to be illuminated. This guarantees glare-free illumination of sidewalks and much more. The DOWNUNDER PURE recessed luminaire is available in white colour version. To operate the luminaire, a suitable LED driver is required providing 350mA. A mounting frame for installation in masonry can be ordered from the accessory. This luminaire contains built-in LED lamps. EEK: A - A++. The lamps cannot be changed in the luminaire.
