The low-voltage recessed ceiling light, AIXLIGHT 3, has multi-directional tiltable lamp holders and is designed to use low-voltage QRB111 halogen lamps. The inside of the luminaire's housing made of aluminium and steel has been painted black giving the observer an image of a free-floating lamp head. The chrome-plated frame rounds off the appearance of the AIXLIGHT 3. A suitable 12V AC transformer is needed to operate the luminaire. This luminaire is suitable for lamps of energy classes: D - A+
