With our AIXLIGHT R2 OFFICE, which is in keeping with the basic design of the AIXLIGHT R series, we offer a high-voltage pendant, which takes two halogen ES111 type lamps with an additional frosted lighting surface, which can be fitted with an energy-saving 33.5W premium LED module. It is available in black, white, or silver-grey housing colours. The lamp holders are multi-directional tiltable ensuring the light cone can be individually aligned. Thanks to the built-in electronic ballast, the AIXLIGHT R2 OFFICE is ready to be directly connected to the 230V mains supply. The ES111 and T5 lamps can be switched separately. This luminaire is suitable for lamps of energy classes: E - A++
