The LED DOWNLIGHT PRO R is a combination of high-quality housing and most efficient LED technology from Philips. With a minimal power consumption despite its high luminous flux and its pure or warmwhite light colour, LED DOWNLIGHT PRO R is ideal to exchange high-intense halogen or incandescent lamps. The LED module is interchangeable. Thanks to the incorporated driver, the downlight is suitable for direct connection to 230V mains supply. This luminaire contains built-in LED lamps. EEK: A - A++. The lamps cannot be changed in the luminaire.
