The wall luminaire DROP 100 is made from aluminum and glasses covering the bulbs. The lampheads are adjustable. Rated IP44, it is suitable for outdoor use. Thanks to the position of the two incorporated sockets, the fitting creates two identical but oppositely arranged light beams (UP/DOWN). The electrical connection is made directly to 230V mains supply via the incorporated transformer. This luminaire is compatible with bulbs of the energy classes: C - A+
