The aluminum floor luminaire POLE PARC is particularly appropriate for the illumination of extensive gardens and parks. By the obliquely directed lamellae of the integrated grid a very effective illumination of the environment is achieved. Rated IP44, it is suitable for outdoor use. The electrical connection is made directly to 230V mains supply via the incorporated ballast. For simplified mounting of the fitting, a concrete anchor set is included. This luminaire is compatible with bulbs of the energy classes: A - A
