With the stainless steel TRUST 30 floor stand, the opalescent PC light surface is enclosed by a stainless steel cap. With protection class IP55, it is suitable for outdoor use. As an option an earth spike as well as a connection box for safe electrical connection to the round luminaire upright, are available. The electrical connection of the luminaire, which comes in two sizes, is directly to the 230V mains supply. A stainless-steel grid is available as a further accessory to change the lighting effect. The TRUST series contains other wall lights and can therefore be used universally. This luminaire is fitted with a powerful 8.6W LED.
