Anna

Outdoor / Indoor round luminaire for installation on ceiling or wall surface-mounted.
Configuration: opal plastic diffuser with satin finish for a high light emission uniformity ratio.
Die-cast aluminium fixing back-plate and turned aluminium structure and heat sink.
Magnetic finish frame to hide the fixing screws. The luminaire is coated with polyester powders in single or double colour. Protection rating: IP65 In compliance with EN 60598-1 standards Class of Insulation: I Installation: the luminaire is equipped with two IP65 cable holders for rubber cables 5ϕ<math><10\text{mm}</math> (Anna $\phi 210$ and $\phi 310$) or cables 6ϕ<math><13\text{mm}</math> (Anna $\phi 410$) and a quick-connect 2-pole terminal block. Outdoor installation requires suitable flexible cables assuring the watertightness of the cable holder.

Anna210 Mid-Power LED / Bicolour Structure White-Green
