Globe. Polycarbonate diffuser ø 250.**Attention! Code out of production****Product code:**

1122

Technical description:

Spheric diffuser for outdoor lighting made of ultra-violet stabilized polycarbonate through injection-blowing technique.

Dimension:

D 250mm

Colour:

White (01)|Clear transparent (24)

Notes:

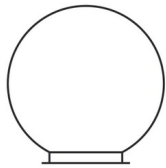

The material used for iGuzzini globes allows a 75% transparency of the luminous flux. Thanks to its mechanical characteristics, polycarbonate can resist any stress for long periods of time and at temperatures up to 140°. Light permeability is not affected by changes in thickness (min. 2 mm). Impact strength is 65 KS/m2.

Complies with EN605981 and pertinent regulations

850°C

IP 45
