## Arm - Intermediate single arm for pole

---

**Product code:**

1128

---

**Technical description:**

Intermediate single arm for pole made up of an attachment and a U-shaped bracket. The diecast-aluminium intermediate attachment is subjected to acrylic painting. The U-shaped bracket is made of galvanised painted bent sheet steel. The U-shaped bracket is coupled to the attachment by means of 2 stainless-steel screws M12x30. Two more stainless-steel screws M12x30 make it possible to fix the projector to the arm. The intermediate arm/projector assembly is fixed thanks to two screws M12x40.

---

**Installation:**

Pole installation at a height of 4 m.

---

**Dimension:**

127 x 197 mm h 75 mm

---

**Colour:**

Grey (15)

---

**Notes:**

The intermediate arm is suitable for installation on all the poles of the iRoad system.

---

Complies with EN605981 and pertinent regulations
