Pole - Steel pole with buried base L=5600 diam. 102 mm h 5600 mm

Product code:

1205

Technical description:

Cylindrical pole made of hot galvanized steel, with 70 micron thickness according to the UNI 5744-66 standard. The pole is made of rolled welded steel. The cross-section and the thickness comply with the homologation specifications of the UNI EN 40 European standard. Provided with a reinforcement anti-corrosion collar, 400 mm long.

Installation:

Buried into the ground (600 mm).

Dimension:

D 102 mm H 5600 mm

Colour:

Black (04)|Grey (15)

Wiring:

The inspection lid is located at 1850 mm from the pole base. It is closed with a die cast aluminium lid provided with 3-way in and 12-way out terminal board. The 60x40 mm access for the power supply cable is located on the pole at 250 mm from the base. The earthing of the pole is made with a M8x17 tropicalized steel insert fixed near the pole.

Complies with EN605981 and pertinent regulations
