Technical description:

Attachment made of G Al Si 2 UNI 5076 die cast aluminium treated with epoxy power paint with orange peel finish. The attachment is fixed to the bracket with a male holding element and blocked with three stainless steel screws and anti-loosening device.

A hole located in the bottom part of the holding element is provided with a clamping screw. The diffuser neck has three teeth which ensure a perfect airtight fixing through a silicone gasket, thus allowing for the IP 45 degree of protection of the optical assembly.

Installation:

The attachment is fixed to the bracket with a male holding element and blocked with three stainless steel screws and anti-loosening device.

Dimension:

D 246 mm H 258 mm

Colour:

Black (04)

Weight [Kg]:

2,9

Mounting:

Poletop bottom entry

Wiring:

The electrical group is housed inside the aluminium attachment on a supporting plate which houses: lampholder, ignitor, ballast, terminal board. The attachment can also house a capacitor. In compliance with the EN40, CEI34-31 and CEI 34-33 European standards.

Complies with EN605981 and pertinent regulations
