**Miniberlino - Luminaire with aluminium reflector 50 W 12 V QT12****Attention! Code out of production - 2012****Product code:**

3035

Technical description:

Suspended luminaire designed for use with very low voltage halogen lamps. A base containing an electronic transformer and the power supply cable L= 1500 mm allow for the luminaire to be installed directly onto the ceiling, guaranteeing ease of installation even in rooms featuring a sloping ceiling. The body of the luminaire is made of die-cast aluminium and houses the lamp-holder and a special glass protection bulb for the use of HAL GY6.35 high pressure lamps.

Installation:

Fitted to the ceiling by means of a base.

Dimension:

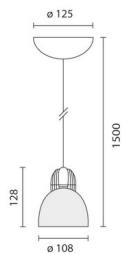

108x128mm H=1500 mm

Colour:

Grey/Aluminium (78)

Mounting:

Ceiling pendant

Complies with EN605981 and pertinent regulations
