### September 2012

### Product code: 3360

### **Technical description:**

Recessed fitting designed to use compact fluorescent lamps. The optical assembly is made of self-extinguishing thermoplastic material. The painted steel top plate acts as a heat dissipater, consequently optimising performance levels and ensuring outputs of up to 80%. The optical assembly is designed for installation in public environments and features surfaces made with inflammable materials. The fitting is installed by means of special fastening springs, which guarantee excellent anchoring to false ceilings ranging from 1 to 25 mm in thickness. The component-holding box is already wired and fitted with a luminous element.

## Installation:

Installation: Recessed with 212-mm diameter holes.	
Dimension: D= 232 mm h= 100 mm	
<b>Colour:</b> White/Aluminium (39)	
Mounting: Ceiling recessed	
Wiring: Inductive control gear with inverter.	
Notes: With high-efficiency reflector	
	Complies with EN605981 and pertinent regulations
