## Light air - Dark VDU up/down module 65° with electronic control gear 2x28 W T16 FH

### Product code:

3371

### Technical description:

Fluorescent system with professional low-luminance optics for T16 28W tubes. The fitting is made up of a sheet steel profile with thermoplastic end caps. The superpure aluminium sheet specular optics with parabolic pits limits the luminance of the light emission to 1000 cd/m<sup>2</sup> for angles of observation larger than 65° from the vertical for the fitting.

### Installation:

Ceiling application by steel suspension cables with quick adjustment and anchoring devices.

### Dimension:

1400x240 mm H 56 mm

### Colour:

White (01)|Grey (15)

### Mounting:

Ceiling pendant

### Wiring:

Electronic ballast wiring for 28W fluorescent tubes. Fast-coupling terminal board designed for double starting of contiguous modules.

### Notes:

Positive contrast dark VDU 65° up/down module Lcd/m<sup>2</sup>. High global performance, relatively wide distribution of the luminous flux. Optics designed to illuminate the offices where VDT work is carried out, with a good uniformity and visual comfort even at high illuminance levels.

Complies with EN605981 and pertinent regulations
