**Spin - Low voltage downlighter 3x50 W QR CBC 51****Attention! Code out of production****Product code:**

3410

**Technical description:**

Recessed fitting designed for use with several individually adjustable light sources for the simultaneous illumination of several objects using a single lighting body. Made from sheet steel, it has three low-voltage light sources. After installation, the only visible element of the fitting is a simple circular ring. The system is equipped with mechanical locks for both axes of rotation to ensure stability of the angle set also after routine maintenance operations.

**Installation:**

Fitting to be recessed into false ceiling by means of steel springs adjustable through mechanical lock inside the optical assembly.

**Dimension:**

D 318 mm H 242 mm

**Colour:**

White (01)

**Mounting:**

Ceiling recessed

**Wiring:**

Connect the cables of the fitting to the terminal block of the secondary of the transformer to be ordered separately.

**Notes:**

For the photometric data of the fitting, refer to the photometric characteristics of the light sources.

Complies with EN605981 and pertinent regulations
