Base lighting - Asymmetric recessed luminaire with solid adjustable cover plate and digital dimmable electronic control gear**DALI TC-L55W**

Attention! Code out of production - 2012

Product code:

3636

Technical description:

Recessed luminaire for TC-L compact fluorescent lamps. White-finished sheet-steel body, white-painted sheet-steel cover plate. The lined aluminium reflector ensures an excellent distribution of the luminous flow. Simplified maintenance. The cover plate can be removed without tools to change the lamp.

Installation:

Installation on grids of 600 mm modular false ceiling panels. Optional square steel brackets are available for installation in false ceilings without visible grid (installed from below). Installation hole dimensions 282x580 mm.

Dimension:

298x596mm H =150mm

Colour:

White (01)

Weight [Kg]:

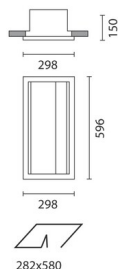

4,4

Mounting:

Ceiling recessed

Wiring:

Control gear contained inside the fitting, for TC-L compact fluorescent lamps, with DALI dimmable ballast provided with switch-dim: possible regulation also with ordinary push-button.

Complies with EN605981 and pertinent regulations
