**Frame - Round version with one optical assembly 1x70 W HI-PAR****Product code:**

4243

Technical description:

Downlighter made up of a metal perimetric rim and a painted sheet steel lamp compartment. The light source is positioned on a special die-cast aluminium gimbal that can be adjusted by +/- 45° and is equipped with a mechanical locking device on the outer ring to guarantee stability of the delivery angle also during routine maintenance operations.

Installation:

Recessed application. The outer casing is fixed to the false ceiling (hole diam. 171 mm) by adjustable brackets on special sliders. The perimetric frame acts as a ledge.

Dimension:

D 179 mm H 224 mm

Colour:

White (01)|Grey (15)

Weight [Kg]:

1,5

Mounting:

Ceiling recessed

Wiring:

Electrical connection by means of fast-fitting connectors. The electrical components required for the fitting are housed in special control gear boxes to be ordered separately.

Notes:

For the photometric data of the fitting, refer to the photometric characteristics of the light sources.

Complies with EN605981 and pertinent regulations
