Frame - Square version with one optical assembly 70 W HI-PAR 30

Product code:

4246

Technical description:

Downlighter made up of a metal perimetric rim and a painted sheet steel lamp compartment. The light source is positioned on a special die-cast aluminium gimbal that can be adjusted by +/- 45° and is equipped with a mechanical locking device on the outer ring to guarantee stability of the delivery angle also during routine maintenance operations.

Installation:

Recessed application. The outer casing is fixed to the false ceiling by adjustable brackets on special sliders. The perimetric frame acts as a ledge.

Dimension:

180x180 mm H 224 mm

Colour:

White (01)|Grey (15)

Mounting:

Ceiling recessed

Wiring:

Electrical connection by means of fast-fitting connectors. The electrical components required for the fitting are housed in special control gear boxes to be ordered separately.

Notes:

For the photometric data of the fitting, refer to the photometric characteristics of the light sources.

167x167

Complies with EN605981 and pertinent regulations
