Lux - Projector 50W PAR 20 (long rod)**Product code:**

6412

Technical description:

Adjustable projector with long pole (h=440 mm) and adaptor for installation on mains voltage tracks and front ring both made of thermoplastic material. Optical compartment made of die-cast aluminium. 50W PAR20 mains voltage halogen lamp. 360° rotation around the vertical axis; 360° rotation of the optical assembly via a continuous friction joint. The projector has a special mechanical blocking mechanism and tool for precision aim. An accessory-holder ring can hold a variety of accessories and up to three flat accessories at once. One external accessory can be also applied: either an asymmetric screen, directional flaps, or an anti-glare screen. All accessories can be rotated up to 360° with respect to the longitudinal axis of the optical compartment. IP40 for optical assembly with optional glass diffusers.

Installation:

Electrified track or ceiling/wall installation via special base that can be ordered separately.

Dimension:

D 106 mm - H 440 mm

Colour:

White (01)|Grey/Black (74)

Weight [Kg]:

0,7

Mounting:

Ceiling surface|Three circuit track

Wiring:

Mains voltage fitting.

Complies with EN605981 and pertinent regulations
