Composit - Module four compartment with electronic power supply

Product code:

6718

Technical description:

Modular multi-lamp system designed for direct accent lighting coupled with indirect general lighting. Module has four optical compartments for 4x100W QR 111 low voltage halogen lamps. Module's support structure is made of extruded aluminium. Die-cast aluminium optical group and electric component container made of high resistance thermoplastic material. The optical groups, which can be adjusted in all directions, have mechanical locking mechanisms in both rotation directions, for precision aim and maximum stability of the light beam. An optional reglette, equipped with an electronic power supply, can be added to the module for indirect lighting. The halogen lamp has a protective silicone elastomer which serves the purposes of light screening and insulation of electric connections. Also available: range of glass accessories for decorative and lighting effects. The system's modules can be joined to each other via special accessories, which allow for various linear and non-linear arrangements.

Installation:

Can be installed as ceiling-mounted, wall-mounted, or suspended fittings via separate accessory kits.

Dimension:

1505x263 mm H = 62 mm

Colour:

Grey (15)

Weight [Kg]:

4,8

Mounting:

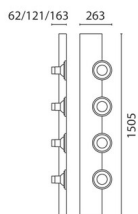

Ceiling pendant|Ceiling surface|Wall arm|Wall surface

Wiring:

Electronic components available inside the fitting. Plugs into system via quick-connecting terminal box.

Notes:

The accessory-holder ring (cod. 6899) is necessary in order to install the glass accessories.

Complies with EN605981 and pertinent regulations
