Radius - Floodlight 70W HIT DE 70W HST-DE**Product code:**

7366

Technical description:

Die-cast aluminium outdoor floodlight which produces a special shaft of light. Its optical assembly houses the control gear for discharge lamps and the light source. An optical system with a tempered glass lens located on the upper part of the lamp produces the special light .

Installation:

It can be surface-mounted, using different mounting plates, on window sills, on the ground or on the wall.

Dimension:

272x256mm H 90mm

Colour:

Black (04)|Grey (15)

Weight [Kg]:

4,9

Mounting:

Ceiling surface|Ground surface|Wall surface

Wiring:

Ballast and ignitor for metal halide 70 W discharge lamps R7s. The cables can be mounted in series for multiple units using a double cable-clamp. The capacitor is supplied with the fitting.

Notes:

The patented optical system makes it possible to focus the light flow creating a 180° "shaft of light" around the unit.

Complies with EN605981 and pertinent regulations
