**Radius - Floodlight with protection grill 70W HIT-DE 70W HST-DE****Product code:**

7368

**Technical description:**

Die-cast aluminium outdoor floodlight which produces a special shaft of light. Its optical assembly houses the control gear for discharge lamps and the light source. An optical system with a tempered glass lens located on the upper part of the lamp produces the special light. The fitting is equipped with wings located in the upper part of the optical assembly which limit glare and protect the lens from accidental knocks.

**Installation:**

It can be surface-mounted, using different mounting plates, on window sills, on the ground or on the wall.

**Dimension:**

272x256mm H 90mm

**Colour:**

Black (04)|Grey (15)

**Weight [Kg]:**

5,1

**Mounting:**

Ceiling surface|Ground surface|Wall surface

**Wiring:**

Ballast and ignitor for metal halide and sodium vapour 70 W discharge lamps R7s. The cables can be mounted in series for multiple units using a double cable-clamp. The capacitor is supplied with the fitting.

**Notes:**

The patented optical system makes it possible to focus the light flow creating a 180° "shaft of light" around the unit.

Complies with EN605981 and pertinent regulations
