IGZMinimal large - Six-assembly small model 6x50W 12V QR CBC 51**Attention! Code out of production****Product code:**

8825

Technical description:

Recessed fitting designed for use with dichroic lamps QR CBC 51 6x50W. It is made up of an aluminium sheet shell housing the three optical assemblies. The lamps are located on die-cast aluminium rings directable through technopolymer universal joints (+/- 45° rotation with respect to the vertical and horizontal axes) - also permitting stability of the angling system. The shell is fixed to the false ceiling (installation hole: 726 x 136 mm) through brackets located on a special adapter made from extruded aluminium.

Installation:

The adapter, which makes it possible to mount the lighting body flush with the ceiling, is fixed to the false ceiling by self-tapping screws. After finishing the false ceiling, the shell can be installed.

Dimension:

720x130mm H 137mm

Colour:

Black (04)

Weight [Kg]:

2,8

Mounting:

Ceiling recessed

Wiring:

Connection to the secondary of the transformer on terminal blocks located on the upper part of the shell.

Notes:

For the photometric data of the fitting refer to the photometric data of the light sources used.

Complies with EN605981 and pertinent regulations
