**Minimal - Large round model 1x75W 12V QR111****Product code:**

8835

Technical description:

Recessed fitting designed for use with 1x75W Superspot lamp QR111. It is made up of a cylindrical aluminium sheet shell housing the optical assembly. The lamp is located on a die-cast aluminium ring directable through technopolymer universal joints (+/- 45° rotation with respect to the vertical and horizontal axes) - also permitting stability of the angling system. The shell is fixed to the false ceiling (diameter of installation hole: 179 mm) through brackets located on a special adapter made from extruded aluminium.

Installation:

The adapter, which makes it possible to mount the lighting body flush with the ceiling, is fixed to the false ceiling by self-tapping screws. After finishing the false ceiling, the shell can be installed.

Dimension:

D 173mm H 137mm

Colour:

Black (04)

Weight [Kg]:

0,8

Mounting:

Ceiling recessed

Wiring:

Connection to the secondary of the transformer on terminal blocks located on the upper part of the shell.

Notes:

For the photometric data of the fitting refer to the photometric data of the light sources used.

Complies with EN605981 and pertinent regulations
