Minimal - Two-assembly large model 2x75W 12V QR111**Product code:**

8839

Technical description:

Recessed fitting designed for use with lamps QR111 2x75W G53. It is made up of an aluminium sheet shell housing the two optical assemblies. The lamps are located on die-cast aluminium rings directable through technopolymer universal joints (+/- 45° rotation with respect to the vertical and horizontal axes) - also permitting stability of the angling system. The shell is fixed to the false ceiling (installation hole: 338 x 178 mm) through brackets located on a special adapter made from extruded aluminium.

Installation:

The adapter, which makes it possible to mount the lighting body flush with the ceiling, is fixed to the false ceiling by self-tapping screws. After finishing the false ceiling, the shell can be installed.

Dimension:

332x172mm H 137mm

Colour:

Black (04)

Weight [Kg]:

1,7

Mounting:

Ceiling recessed

Wiring:

Connection to the secondary of the transformer on terminal blocks located on the upper part of the shell.

Notes:

For the photometric data of the fitting refer to the photometric data of the light sources used.

Complies with EN605981 and pertinent regulations
