

Zettel'z 5  
INGO MAURER 1997

Stainless steel, heat-resistant satin-frosted glass, Japanese paper. 31 printed and 49 blank paper sheets DIN A5. The Zettel'z 5 is one of Ingo Maurer's best known lamps. It gives the user plenty of room for his or her own creativity, and can be set up so that it is space-consuming and loose or narrow and dense. The blank sheets of paper supplied with it are designed to be used for your own messages or sketches. The Japanese paper is very thin and translucent. Two bulbs provide good light.

**Light source**

Bulbs are not included. Two sockets E27, max. 250 W / 75 W, compatible with bulbs of the energy classes A++ - E. Originally with Halogen 205 W, 2800 K, 4200 lm, 2000 h, CRI 100, EEC C (upper socket) and halogen spot PAR 30 Flood 30° 52 W, 2900 K, 650lm, 2000 h, CRI 100, EEC D (lower socket). Also works with LED light source: The upper socket can be equipped with a LED retrofit bulb, e.g. Philips Master E27. For the lower socket we recommend LED PAR 30S 12W 3000 K, 900 lm, 20.000 h, CRI 85, dimmable - will soon be available. [As of May 2017]. The spots are available separately. 125 volts version: Reflector bulb with adapter, socket G9 and glass reflector for the lower socket.

**Technical data**

For 230 or 125 volts.
