

## DIADEMA

Design Romani Saccani Architetti Associati

## DIADEMA SP C\_2

Light in motion. That is the sensation pervading the environment when one turns on a Diadema. The work of Romani Saccani Architetti Associati, the fathers of this project, first concentrates on the single element of the glass rod and then develops on a composite system: by combining rods of different sizes, the light is reflected and conveys the desired dynamism. Several variants and possibilities for customization are available. Available in the following versions: suspension, applique, table and floor lamp. Crystal shade. Metal parts finishing in satin bronze and chrome.
