Waterfall Straw Twin

REFERENCE CT3307/16

DESCRIPTION

Inspired by the movement of the flow of a waterfall that has an intrinsic verticality, the Waterfall collection plays with the duality of visually dense glass pieces and the minimalism of its bronze structure. The glasses in the collection are presented as fragments of water suspended and immobilized, and there are a wide variety of chromatic options, a feature that combined with the different colour finishes that can be applied to bronze makes it possible to combine decorative elements of various shades with a magnanimity that collection can bring to a space.

Finish shown here Metal PR | Glass 10+14

Designed and produced by hand in Portugal.

Serip reserves the right to make changes or improvements at any time it deems useful to guarantee the highest quality standards for its products.

Hand-finished, some variations may occur.

All the glass models are designed by Serip and exclusively handmade produced, establishing a unique and prestigious feature of the glass handwork art. For this reason, there is the possibility of variation in measures, weight, colour and shape represented.
