Wind Aquilon

REFERENCE PA635/2

DESCRIPTION

T

Inspired by reeds drifting in the wind. Raw and unpredictable like the air motion, the Wind collection is designed to have a strong connection to the random dance of the wind. The structure follows a minimalistic presentation, standing as a heavy sculpture of bronze that ensures a patterned game of light and shadow through the architectural plans of a space. By its broad extent, yet eased in detail, this collection is a good bet in modernist environments. Ideal for lobbies, entrances and as a decorative element.
