

Sol spot - 30°

IP20 

DESIGN BY

Marco Zanuso Jr, Christophe Mathieu

DESCRIPTION

Sol is a system entirely based on innovative optical computing principles and LED technology, made of transparent materials and characterized by simple features. Sol consists of three elements that are essential for its functioning: a lens, a mixing chamber and a heat sink. The cone-shaped light determined by the lens is large and soft, yet controlled. The mixing chamber avoids glaring that would otherwise arise from the LED left exposed behind the lens. The mixing chamber hides the LED in which is inserted due to its geometry, reflecting all the light that lands on its surfaces and redirecting it into the lens. Its radial shaped perforated face facilitates dissipation.

TECHNICAL DRAWINGS

FEATURES

Article Code:	DMZ2357C00A1	Material:	Aluminium, PMMA
Colour:	Bright anodized	Series:	Scenarios
Installation:	Projector		
Environment:	Indoor		

DIMENSIONS

Height:	cm 19.3
Weight:	kg 0.9
Base Diameter:	cm 10.6

INCLUDED SOURCES

Category:	LED	Color temperature (K):	3000K
Number:	1		
Watt:	25W		
Type:	0		
Class:	A		

LUMINAIRE

Watt:	13W	Delivered lumens output (lm):	775lm
		CCT:	3000K
		Efficiency:	66%
		Efficacy:	59.62lm/W
		CRI:	80
