

REAL MATTER

Mounting	Wall surface
Lamps description	Low-Power Led: 3W - 180 lm ≠ FIXT 74 lm - 2700K/CRI 80 - 24V
Environment	Indoor, Outdoor
Notes	We recommend using a connection system with a degree of protection greater than or equal to the degree of protection of the luminaire.
Technical description	Body made of stainless steel AISI 316L treated with the PVD process (Physical Vapour Deposition). Thanks to this innovative treatment, after the polishing or brushing process, according to the finishing choice, the surfaces of Real Matter are coated with a thin film of metals such as zirconium and titanium which, combining with the steel at the molecular level, increase the characteristics of resistance to both mechanical and to atmospheric agents, allowing the realization of elegant and durable finishings. UV-stabilized polycarbonate diffuser. The luminaire is provided with two L 200mm outgoing power cables and with a kit for the hermetic IP connection. It is necessary to use an installation box, to be ordered separately. The power feed driver may be installed remotely or housed at the back of the luminaire in the remote housing.

Real Matter

designed by Piero Lissoni

Luminaire for outdoor use for built-in installation on the wall with LED light source. It is necessary to use an installation box, to be ordered separately. 24V power source not included.

	F5960015	Polished copper
	F5960046	Brushed bronze
	F5960044	Brushed gold
	F5960056	Brushed steel

DIMENSIONS

ELECTRICAL

Transformer type	Electronic
Transformer availability	Separate item
Transformer mounting	Integral, Remote
Emergency	Without
Voltage (V)	24

PHYSICAL

Aiming	Fixed
Weight (kg)	0,60
Number of heads	1
